**FOR IMMEDIATE RELEASE**

## ColumbiaSoft™ Promotes Scott Zieg to Lead its Document Management Product Offering

*New Product Manager role places Zieg in charge of the firm's Document Locator® line of business software.*

**Portland, Ore. – Aug. 26, 2008 –** ColumbiaSoft announced today that Scott Zieg, who formerly led the firm's product development division, has been promoted to Product Manager and has assumed responsibility over the strategic direction of the company's Document Locator software offering.

"Our opportunity is to leverage the position Document Locator has achieved in the marketplace as a next-generation enterprise solution, and build on that to develop services that are solution-specific and appeal to certain market segments," said Zieg. "Communicating with our customers and setting the roadmap to meet their business needs as well as the company's objectives will be a key step in the process, and something that I look forward to doing."

"Scott's view into the market, and his ability to formulate high-value solutions that address very real needs, make him uniquely qualified for this new role," said ColumbiaSoft executive vice president of worldwide sales and marketing David Pogue. "He understands our customers; he understands their needs; and he knows how to translate that into solutions."

Zieg has been with ColumbiaSoft since 2001, and has held leading responsibilities across technology, quality assurance, customer support, and product development. He's considered the principal architect for the software offering that ColumbiaSoft currently delivers. Prior to joining ColumbiaSoft, Zieg worked with Charlie Plesums, a well-know pioneer in the field of document workflow, at Computer Sciences Corporation. Zieg is a graduate of Baylor University.

Document Locator is an enterprise-class document management software system designed for businesses to improve document-driven business processes; reduce business risk stemming from lost, misplaced or non-retrievable files, and achieve greater efficiency through improved

collaboration. At the system's core are capabilities for document control, records management, document delivery, imaging, document workflow, and email archiving.

## About ColumbiaSoft Corporation

A private, Portland, Oregon-based company founded in 1998, ColumbiaSoft is the creator of Document Locator®—a next-generation enterprise-class document management solution that is fully integrated into popular applications such as Microsoft Windows, Office, Outlook, SharePoint, Adobe Acrobat and AutoCAD. Thousands of information workers use Document Locator to capture, manage, and share paper and electronic documents, e-mail, and faxes—saving costs, increasing productivity, and meeting compliance requirements. ColumbiaSoft is a Microsoft Gold Certified Managed Partner. For more information, visit http://www.documentlocator.com.
